

Messiah Preschool

Statement On Religion

Messiah Preschool acknowledges and respects the different religions and cultures represented in the school. We feel that a preschooler can best learn about religion if he/she experiences feelings of love, acceptance and respect of self and others in his/her everyday life. The most important way preschoolers learn the biblical message is by being with adults who radiate God's love and care.

Pre-School Goals

The program's primary goal is to create a warm, loving, child size, child centered atmosphere based on the needs and interests of two through five year old children. Each child is regarded as a unique individual and is encouraged to experiment and learn at his/her own rate. We feel a child learns best by doing.

Focused Goals

- Help the child learn to get along with others.
- Help the child learn to use various materials.
- Provide a setting in which the child can express him/herself competently.
- Teach the child to listen intelligently and follow directions.
- Introduce the child to school life.
- Foster the development of new skills and interests.
